REASONS FOR ALLOWANCE

Claims 5-17 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was the medical treatment device having two balancing chambers that are separated into two partial chambers by a flexible member wherein the system includes a monitoring device configured to determine the initial filling times of the partial chambers and to then compare the filling times to determine a filling time difference in the chambers, this indicates that a leak has occurred or that the chambers are not filling completely, in combination with the other elements (or steps) in the claims. The prior art of record does not teach of a monitoring device configured to determine the initial filling times of the partial chambers and to then compare the filling times to determine a filling time difference in the chambers, this indicates that a leak has occurred or that the chambers are not filling completely, only merely monitoring levels or leaks independent of one another.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
